Subject: Tribal Contact info from the Lower Brule

Hi Dale,
Thanks for getting back to me after I left the message for you on voicemail and I sorry it took so long for me to get back to you again!

We are getting ready to send tribal consultation letters for the Dewey-Burdock uranium recovery site near Edgemont, SD. It is not on tribal land, but the Sioux tribes and a number of other tribes have historical interest in site, since it is located in the southern Black Hills region. I mailed out tribal

consultation letters in 2015. Now we are getting ready send out a second set of tribal consultation letters, so I am in the process of updating the tribal contact list. Cadmus is the contractor helping me with this effort. They are calling each tribe to verify the Chairman or President, the environmental director and the Tribal Historic Preservation Office or Cultural Resources Office contact. They found some inaccuracies in our Tribal Contact List on our 8-Net page. When Cadmus talked with the Lower Brule, the person was hesitant to provide any information to the contractor, so I am checking on the contacts.

I have checked the Tribal Contact List on our 8-Net page for the Lower Brule Tribe. It was last updated March 22. It looks like the Chairman is Boyd Gourneau and the Environmental Director is George Honeywell. This info matches the info on the Lower Brule's website. I think this is up-to-date info, but I just wanted to run it by you to see if this matches the info you have.

Thanks!

Valois
